

TREE PRESERVATION AWARD

As part of our continuing efforts to recognize outstanding achievements in protecting our natural resources, The City of Brookhaven Community Development Department invites nominations for **Tree Preservation and Planting**. The award honors builders, developers, designers, site superintendents and contractors whose projects best demonstrate excellence in a commitment to tree preservation and planting in the City of Brookhaven. Award winners are honored at a City Council meeting each January. The City of Brookhaven Department of Public Works, Community Development, and City Council, sponsor the annual awards program.

The Tree Preservation and Planting Awards were created to recognize developers and builders who have done an outstanding job of preserving trees and incorporating landscaping into their sites thereby reducing erosion at their construction sites. It is also a way to publicly recognize construction sites whose plans were correctly implemented and properly maintained.

Nominations: Nominations and judging are conducted once a year. All nominations will be reviewed by members of the City of Brookhaven Tree Board and winners will be selected by December 31, 2015.

Procedure: Nomination form (see attached) should be mailed by **November 30, 2015** to:
Community Development Department

4362 Peachtree Rd

Brookhaven, GA 30319

All nominations will be reviewed by members of the City of Brookhaven Tree Council and winners will be selected by December 31, 2015.

Note: Projects nominated for tree preservation and planting awards must be completed.

TREE PRESERVATION AWARD

1. Awards for **Tree Preservation** are presented to recognize those developers and builders who have done an outstanding job of preserving trees on a project they have constructed. Nominees shall have made a commitment toward tree preservation during the planning stages by designing the project to preserve the maximum number and the most suitable trees possible given the existing resources and site constraints. This commitment shall have been further demonstrated by ensuring the installation, maintenance and honoring of tree protective devices throughout construction of the project to achieve the planned preservation.
2. Awards for **Tree Planting and Landscaping** are presented to recognize those developers who have done an outstanding job of replacing trees that were unavoidably destroyed due to development. Nominees shall have planted the most suitable species based on post-development conditions and providing for the long-term survival of planted trees. Planting to take advantage of energy conservation opportunities, provide air and/or water quality benefits, and wildlife benefits; as well as use of native species and improved cultivars and varieties, will also be taken into consideration in this category.
